Ki-Aikido Seminar

Vercelli, April 27th,28th 2019

Vercelli is located in the Po valley, in the middle between Turin (65 Km) and Milan (62 Km).

It's easily reachable from the highway or by train from any direction.

A city of art.

Vercelli is a provincial capital of Piedmont. It has wonderful churches and historical monuments.

The city has ancient origins, many signs of an important past are still intact and in the latest years they made Vercelli even more interesting for visitors.

The city has three facets: medieval, rinascimental and of city of art.

The itinerary can start from the St. Andrea's church, a masterpiece of the Italian Romanic Gothic phase, the symbol of the city with its wonderful cloister where it is possible to walk in total peace.

The S. Andrea cathedral, built between 1219 and 1227, is one of the first examples of Italian Gothic architecture.

Nearby it is also possible to see the Cathedral Square, where there is the Cathedral, another important spot in the city tour.

The Cathedral: out of the original ancient medieval building remains only the bell tower. The actual building, in neoclassic style, was built between the 16th and the 18th centuries.

There are more characteristic squares, as Cavour Square, where it is possible to stop for a drink and relax far from car traffic.

Another gorgeous monument is the Jewish synagogue, further proof of Vercelli as unique in every form of art.

The Vercelli Jewish synagogue, Moresco style, example of nineteenth-century synagogue.
