

Misogi-Retreat in Furusato

WHY ?

- The mind comes to rest
- Lungs expel waste products
- Respiratory muscles are strengthened
- Emotions are released

Morihei Ueshiba explained the significance of Misogi like this:

"The only cure for materialism is the cleaning of the six senses (eyes, ears, nose, tongue, body and mind). If the senses are clogged, one's perception is stifled. The more it is stifled, the more contaminated the senses become. This creates disorder in one's life and, consequently, throughout the entire world, and that is the greatest evil of all.

In order to protect the world, we must first rid ourselves of defilements."

TESTIMONIES

- „It was an intense and great experience and very well structured“

- „There was a time of genuine inner peace“
- „During the 3 days I went from 'what am I doing here - I could sit at home and read something' to the perfect unity of voice, movement, group, space and everything. Those were the moments that make you forget everything else“
- „Since the weekend I have a strange but pleasant state of serene energy“
